

Summit 10

THE SUPER PREMIUM
that strengthens it's health

ABOUT US

At Summit 10 we are inspired by a love for animals, and this can be seen in all our recipes. We are demanding in the choice of ingredients and in the manufacture of the products, using only the best technology.

We want to contribute to the well-being of pets in a natural way, bringing to market products that are healthy, balanced and customised. A product for each pet according to its age, size, sensitivity and lifestyle.

It is a philosophy that drives us on in our passion to discover and explore advances and trends in the agri-

food industry and which is embodied in the constant development of new products.

We are proud that, after nearly 20 years working in pet nutrition and health, today thousands of cats and dogs in Europe, Asia and the Middle East are fed each day with our products and we are driven by a passion to innovate and carry on helping to improve the quality of life of pets.

INGREDIENTS

All our recipes are made with high quality natural ingredients and free of genetically modified organisms, with which we manage to offer tasty, balanced and top quality products to cover each of the different nutritional needs of pets, in each of their stages of life. In addition, we do not use artificial colourings, flavourings or preservatives.

INNOVATION

We prepare our recipes with the latest technology, preserving the natural nutrients of each ingredient.

Our fresh meat injection system allows us to elaborate recipes that stand out for their high quality, palatability and digestibility.

ORIGIN

We are demanding in the selection of the suppliers we work with. Our ingredients are sourced from local and reliable suppliers with the highest quality standards.

We use our own, 100% natural appetite enhancers, giving our recipes a unique and recognizable flavor.

SUSTAINABILITY

In order to contribute with the environment our packaging is environmentally friendly by being recyclable.

Moreover, our ingredients are free of genetically modified organisms and the formulas contribute a better well-being of pets. We actively make a better world for them.

Whole Choice

The best selection of natural and fresh ingredients allows us to obtain multi-protein recipes based on fresh boneless and grain-free meat. The contribution of fruits and vegetables, together with natural pre and pro biotics allow us to obtain tasty and highly healthy recipes.

Grainfree

Pets benefit from recipes with up to 40% fresh meat and a single source of animal protein. We achieve holistic, grain-free recipes suitable for the highest requirements in dogs with dietary conditions such as allergies and intolerances.

Life Stages

Super Premium recipes made from the best chicken meat and rice. Contains at least 10 ingredients that help strengthen the pet's immune system. Highly balanced and vitamin-rich multiprotein diet that improves the health of our pets.

NATURAL INGREDIENTS

Natural ingredients that encourage the growth of intestinal flora in various ways. Intestinal flora makes it possible to absorb nutrients from the intestine into the organism. If the flora works correctly, the immune system remains healthy.

The aim is to have a beneficial effect on digestive well-being whilst reinforcing the animal's immune system.

FRESH CHICKEN

The first ingredient in most of our recipes for its high biological value, excellent taste and digestibility.

RICE

A high digestible ingredient and a vital source of energy for active pets.

DRIED EGG

The lutein present in eggs helps in the development of the immune system.

LIVER HYDROLYSATE

Contains arachidonic acid, which helps to maintain the immune system.

GREEN PEAS

This protein-rich legume boosts energy levels in dogs and is gentle on the digestive system.

GINGER

Ginger is anti-inflammatory and also help dogs with arthritis.

SALMON OIL

A dietary source of omega 3 fatty acids (DHA), the precursors of anti-inflammatory molecules that work with the immune system.

POTATOES

Provide texture and structure properties. Also aid digestion and improve the palatability of the product.

MIX OF HERBS

Natural antioxidants that strengthen the immune system.

APPLE

The quercetin in apple stimulates the defences of the organism.

TOMATO

The lycopene in tomato has an immune-stimulus effect.

CITRICS

A powerful antioxidant searching out and eliminating free-radicals that can damage cells.

Summit10 Whole Choice

Whole Choice is Summit 10's new super premium food range that focuses on quality, freshness and variety of ingredients as a source of good health for our four-legged friends.

Delicious grain-free recipes with fresh boneless meat and fish as the main ingredient, and a high content

of fruit, vegetables and herbs that are beneficial to their health.

With the perfect amount of energy, vitamins, minerals and a high meat protein content to support their development.

Inspired by nature, Summit 10 Grain Free has been specially formulated for adult dogs, particularly those with sensitive digestion or those requiring extra care for their skin and coat.

Very healthy and tasty formulas resulting in easy-to-digest nutritional benefits.

Recipes as an ideal solution for sensitive dogs, prone to allergies or food intolerances.

Only contains natural ingredients suitable for human consumption. Contains 70% meat or fish, of which 40% is fresh.

Summit 10 Grain Free is one of the best Grain Free on the market, based on high-quality ingredients and cooked using the highest technology.

HYPOALLERGENIC

HOLISTIC

NO GRAIN

GMO FREE

Fresh meat

Provides many nutritional values that meal does not provide and as a consequence, products are prepared with protein that is less denaturalized, fat with less oxidation and with greater conservation of vitamins in the meats.

Chicken

Essential component of several major metabolism functions among which is included thyroid metabolism. More over helps to reinforce the animal immune system. It's a highly palatable ingredient. Fresh chicken comes from livestock selected among the finest Spanish farms.

Salmon

Rich in Vitamins B3 and D that helps reduce cholesterol and strengthen the skin and bones. Its oil is rich in omega 3 fatty acids, DHA and EPA. Fresh salmon comes from the Atlantic Ocean and the Bay of Biscay.

Potato

Is the most digestible source of carbohydrates as an alternative to cereals. Facilitates the digestion and significantly improves palatability. It has a high-energy value. The potato is also suitable to help digestion problems.

Summit10 Life Stages

Recipes with chicken as first ingredient and rice.

Immuno diet formula with scientifically tested ingredients that contribute to the perfect functioning of the immune system.

A demanding selection of suppliers allows us to have the highest quality ingredients, selected, approved and inspected. All the ingredients in Summit 10 provide us with recipes that naturally maintain the functional balance of the pet's internal organs and metabolism.

Summit 10 supports a strong and systemic immune response. A healthy intestinal wall is a barrier to pathogens. Good microbiota and the immune system are critically interconnected. With Summit 10 we boost intestinal immune function and maintain a balanced intestinal microflora.

Benefits:

Chicken and rice as main ingredients. Great sources of protein and carbs.

Recipes with a minimum of 10 high quality ingredients that help to reinforce your pet's immune system defences.

Omega³ and Omega⁶ to maintain their skin healthy and brilliant coat.

Maximum protection of the intestinal flora avoiding possible pathogens.

SUMMIT 10 LIFE STAGES

Puppy Chicken & Rice 3kg / 15kg

A complete balanced food for pups aged between 2 and 12 months. Also ideal for pregnant or feeding females.

- For puppies, nutrition plays a fundamental role in the development of the immune system. Contains at least 10 ingredients that help to develop puppy's immune system during its first months of life.
- The main ingredients are chicken and rice, both excellent sources of highly digestible protein and carbohydrate to help with the pup's growing joints.

Analytical Constituents

Crude protein	30%
Crude fat	19%
Crude fibre	2,2%
Crude ash	7,8%
Humidity	9%
Calcium	1,5%
Phosphorus	1,1%

Nutritional additives

Copper	20 mg/kg
Vitamin A	20.000 UI/kg
Vitamin D3	1.500 UI/kg
Vitamin E	150 mg/kg
Zinc	150 mg/kg
Iodine	3,5 mg/kg
Manganese	7,5 mg/kg
Selenium	0,15 mg/kg

Composition

Chicken meal, maize, rice, poultry fat, wheat, fish meal, linseed, beet pulp, hydrolyzed chicken liver, chicory pulp (FOS), yeast (MOS), dried whole egg, tomato, apple, salt, potassium chloride, rosemary, agrimony, yeast extract (MOS), glucosamine, chondroitine sulphate, yucca schidigera. Contains antioxidants and preservatives: EC additives

Technological Additives

Antioxidants: Tocopherol extract from vegetable oils.

SUMMIT 10 LIFE STAGES

Adult Chicken & Rice 3kg / 15kg

A complete balanced food for medium-sized and large adult dogs aged 1 year and older.

- A food with at least 10 high-quality ingredients that help to strengthen the dog's immune system and contribute to intestinal health.
- Contains glucosamine and chondroitin for healthy joints.
